

Enterprise Business Continuity Built From the Ground Up

SIRIS 2 Business Starting at \$1499

Designed for small businesses that don't require a rack-mounted unit, but still need the unmatched RTO (Recovery Time Objective) of local virtualization. Clients can grow their BDR from 500GB to 2TB without needing a replacement device.

SIRIS 2 Professional Starting at \$2499

Aimed at medium-sized businesses looking for the best in Business Continuity. Scales from 1TB to 5TB. Every SIRIS 2 Pro comes standard with IPMI for easier centralized management.

SIRIS 2 Enterprise Starting at \$6999

Optimized for simultaneous virtualization and replication in large environments, with storage capacities from 5TB to 36TB. Every SIRIS 2 Enterprise includes dual Intel Xeon E5 six core processors and can be configured with up to 1TB of RAM.
